Tusonix, Inc., Products & Catalogs

Exceeding Customer Needs throughout the World

TUSONIX draws upon a wealth of both single-layer and multi-layer ceramic technology to offer customers thousands of EMI/RFI components designed to solve their Electromagnetic Compatibility problems. For specific product information, please click on Tusonix product descriptions below:

- [EMI/RFI Feed-Through Filters](#)
- [Surface Mount EMI Filters](#)
- [Ceramic Variable Trimmer Capacitors](#)
- [Custom Filter/Capacitor Assemblies](#)
- [Filtered Terminal Blocks](#)
- [Radial leaded disc, tubular & WEECON® Plate Capacitors](#)
- [Ceramic Coaxial Resonators](#)

QUALITY

Committed to quality, Tusonix has always maintained uniform Management Systems. With a fully equipped quality assurance laboratory, Tusonix provides products with approval to MIL-PRF-15733, MIL-PRF-81 and MIL-C-11015.

Quality is the key ingredient in all TUSONIX products. Over 800 employees are committed to continually improving the quality of Tusonix products and services. Each employee is focused on and is integral to the company's quality objective: The timely delivery of quality products which exceed the customers' expectations, through the use of teamwork and a process of continuous improvement.

SERVICE

At TUSONIX, EMI solutions are easy to come by. With thousands of quality ceramic capacitors, filters and trimmers, and a highly skilled Customer Engineering Staff that works with you on design and application problems, we are confident that Tusonix can

satisfy all your EMI/RFI needs.
