PRODUCTS: Electrical slip rings

The following models of electrical slip rings are designed by third-party vendors to specifically match the most popular Princetel FORJs, which include the MJX, RPT, MJ2, JXn, MXn, and MJn series. The common key features of the sliprings are low maintenance and long life cycle. Princetel offers them as integrated solutions. Some of them, such as SRF24, SRG12, and SR202G, are so popular they are almost always in stock. Please call if your applications require slip rings with features that are not covered here. You are also encouraged to visit our [Solution page](#) to see a wide variety of choices directly from our partner companies.

**Model SRG12 Slip Rings**Matching FORJs: **MJX series** (embedded)

Features: 12-ring, gold-on-gold, 240 V, 1 A/ring, 28 AWG, 240 rpm.

Applications: Cameras, digital and analog signals

Typical lead-time: Shipped from stock

**Model SRF24 Slip Rings**Matching FORJs: **MJX series**

Features: 24-ring, gold-on-gold, 240 V, 1 A/ring, 28 AWG, 240 rpm.

Applications: Cameras, digital and analog signals

Typical lead-time: Shipped from stock

**SR202 Series Electrical Slip Rings**Matching FORJs: **MJX series** (embedded)

Features: 30-ring, silver-silver or gold-on-gold, 240V/5A/ring, 22AWG.

Applications: Power transmission, digital and analog signals

Typical lead-time: SR202G shipped from stock

**SRP90 Series Electrical Slip Rings**Matching FORJs: **MJX series** and possibly **RPT series**

Features: 500kg load, 2 CKT, gold-on-gold, 1kV/2A, 20AWG, 500rpm.

Applications: Power transmission, digital and analog signals

Typical lead-time: 6-8 weeks

**SR223 Series Electrical Slip Rings**Matching FORJs: **RPT series** and **MJ2 series**

Features: silver-silver or gold-on-gold, 1 kV/10 A, 14 AWG, 250 rpm.

Applications: Power transmission, digital and analog signals

Typical lead-time: 8-10 weeks

**SR221 Series Electrical Slip Rings**Matching FORJs: **MJn series** and **JXn series**

Features: silver-silver or gold-on-gold, 2 kV/14 A, 14 AWG, 100 rpm.

Applications: Power transmission, digital and analog signals

Typical lead-time: 8-10 weeks

**SR723 Series Electrical Slip Rings**Matching FORJs: **MJn series** and **JXn series**

Features: silver-silver or gold-on-gold, 2 kV/14 A, 14 AWG, 100 rpm.

Applications: Power transmission, digital and analog signals

Typical lead-time: 8-10 weeks

High Load Swivel/Slipring/FORJ (9 tons)Matching FORJs: **MJn series** and **JXn series**

Features: 9 ton load, silver-silver or gold-on-gold, 2 kV/14 A, 100 rpm.

Applications: Power transmission, digital and analog signals
